DECCAN HERALD

Minister CT Ravi uses the markAR app to scan Gandhiji's image and gain access to documentaries on his life

An AR experience of Gandhi's life

BENGALURU, DHNS: Citizens on Friday had a unique experience of Gandhi at the Augmented Reality (AR)-enable exhibition displaying the Mahatma's life.

Organised at Mahatma Gandhi Park off MG Road, the exhibition was applauded by tourism minister C T Ravi and freedom fighter H S Doreswamy for its innovative and immersive presentation.

We are in an advanced technological era where everything is smartphone-driven. Presenting Gandhiji's life through AR

is a positive initiative that will be effective and interactive," said the minister.

Doreswamy said Gandhiji saw technology and machine as complementary to human effort.

Developed by Bengalu-ru-based start-up 4Point2 Technologies, the AR-based representation allowed visitors to down the markAR app and scan Gandhiji's image to understand his life through music, speeches, images, documentaries, movies, and 3D

THE NEW INDIAN EXPRESS

BRIDGING THE GAP AR TECH BRINGS GANDHI ALIVE WITH MUSIC, SPEECHES, DOCU-FILMS

Tourism Kannada & Culture Minister CT Ravi scans the code for an interactive experience on the Life of Mahatma Sandhi in Bengaluru on Friday (www.waw.

EXPRESS NEWS SERVICE

TECHNOLOGY brought alive Mahatma Gandhi 151 years af-ter his birth, for a generation far removed from the realities of the freedom struggie. In a first, the public was treated to a better understanding of Gandhi's life through Aug-mented Reality (AR), that ena-bies an interactive experience in a real-weed environment. in a real-world environment.

It was an attempt at pre-senting Gandhi's ideals, prin-ciples and messages through experiential learning by Ben-galuru-based technology ena-bler, 4Point2 Technologies. This unique homage was paid to the Father of the Nation on the occession of Gendhi Javthe occasion of Gandhi Jay-anti at Mahatma Gandhi Park

on MG Road. By harnessing AR, the com-pany bridged the gap between the past and present to present the Mahatma through music, speeches, images, documentaspeecnes, images, documenta-ries, movies and 3D projec-tion. This experiential under-standing made it helpful for the public, especially children. The america machine include The exercise was enabled by downloading the 'MarkAR'

adventoaling the MarkAke app on smartphones, and will be available till October 10. Kamser Shiva Kamse, found-er chairman and managing di-rector, 4point2 Technologies, said. "Gandhiji stood for peoce, non-violence and self-reliance, which are relevant even today

High-end smartphones equipped with a synaus equipped with a gyroscope can see Gandhiji and listen to him at any location in front of them by scanning the ground surface

He believed in action as pro-gress, and that inspired us to provide this experiential learning about him and is our homage to the grestness of a man whose philosophy guides Indis even today." Tourism, Kannada & Cul-ture and Youth Empowerment Minister CT Ravi, said. "We are in an advanced technologi-cal era. This attempt to present Gondhitf's life through AR is a positive initiative as the public. essecially children will understand the great leader in an ef-fective, interactive manner."

fective, interactive manner: In a special message, 102-year-old freedom fighter HS boreswamy said, "Gandhi-ji sav technology and ma-chines as complementary to human effort. Gandhiji's dream of an Independent In-dia was to make all Indians contribute teomeda matica. contribute towards nation-building, keeping aside per-sonal ambitions and greed."

EXPRESS NEWS SERVICE

If M K Gandhi's thoughts If MK Gandhi's thoughts had been adopted, migrant workers would perhaps have not suffered what they did. Karnatike High Court Chief Justice Abhay Shreeniwas Oka said on Friday. He was speaking during a webinar on 'Relevance of Mahatma Gandhi in 2020 on the accession of Gendhi Im-

Mahatma Gandhi in 2020 on the occasion of Gandhi Jay-anthi, organised by the Kar-nstaka Legal Services Au-thority, the High Court and Bengaluru Urban District Legal Services Committee in association with the Water Institute of Bangalore University

niversity. Justice Oka touched on Justice Oka touched on Gandhi's ides about village development through self-sufficiency. 'I am not an ex-pert in the field of economy but in the present-day con-text, when we see the serious issue of migrants, 1 person-ally fael the time has come for us to revisit the thought process adopted by Gandhi and give utmost importance to village industries. If we had implemented the and give timest importance to village industries. If we had implemented the thoughts of Gaendh in inde-pendent India, perhaps mi-grants would not have suf-fered what they did, "Justice Oka said. He urged the at-tendees of the webinar-which included students, ju-dicial officers and others to revisit Gandh's writings. Talking about Gaendh's ba-gal career, Justice Oka said that what he did in South Af-rica was a lesson for every member of the Baz. Gandh was a civil rights activist, who advocated non-violence and Satyagraha. "This is a model for how a great service can be rendered," he said.

Experiencing Mahatma Gandhi's Life Through Augmented Reality

Bengaluru (Karnataka) [India], October 6 (ANI/PRNewswire): There have been several experiments in presenting Mahatma Gandhiji's ideals, principles and message to the world in the past. For the first-time ever, the public were able to experience Gandhiji's life through Augmented Reality (AR), a technology that enables an interactive representation of a real-world environment enhanced by perceptual information, leading to an experiential learning and understanding. Bengaluru-based technology enabler, 4point2 Technologies, today paid homage to the Father of the Nation on the occasion of Gandhi Jayanti in a unique manner at the Mahatma Gandhi Park on MG Road.

An AR experience of Gandhi's life

Citizens on Friday had a unique experience of Gandhi at the Augmented Reality (AR)-enabled exhibition displaying the Mahatma's life. "We are in an advanced technological era where everything is smartphone-driven. Presenting Gandhiji's life through AR is a positive initiative that will be effective and interactive," said the minister. Doreswamy said Gandhiji saw technology and machine as complementary to human effort. Developed by Bengaluru-based start-up 4Point2 Technologies, the AR-based representation allowed visitors to down the markAR app and scan Gandhiji's image to understand his life through music, speeches, images, documentaries, movies, and 3D projection.

AR tech brings Gandhi alive with music, speeches, docu-films

BENGALURU: Technology brought alive Mahatma Gandhi 151 years after his birth, for a generation far removed from the realities of the freedom struggle. In a first, the public was treated to a better understanding of Gandhi's life through Augmented Reality (AR), that enables an interactive experience in a real-world environment.

It was an attempt at presenting Gandhi's ideals, principles and messages through experiential learning by Bengaluru-based technology enabler, 4Point2 Technologies.

Media Invitation

Dear Sir/Madam, Greetings!

While Gandhi Jayanthi is an inspiring day for all of us, at 4Point2 Technologies, we are celebrating the day in a different manner - an experiential way of understanding the Mahatma and his life! We have selected Mahatma Gandhi park on MG Road to celebrate Gandhi Jayanthi, a perfect location to pay homage to the great leader.

We invite you to visit the park between 1:45 pm and 3:15 pm on Oct 2, Friday, to experience Gandhiji and his life through Augmented Reality and its unique applications. This is a first-of-its-kind approach to showcase the Mahatma and convey his messages to the world. Following the launch, the entire experience will be available to public through 4Point2 Technologies' MarkAR App for Android mobile devices between October 2 and October 10 – an amazing experience for children to understand the Mahatma.

MEDIA INVITATION

4Point2 Technologies(Bengaluru-based technology enabler)

Invites You for a Unique

Gandhi Jayanthi celebration

Experience the Mahatma and his Life through Augmented Reality

Preview for Media, @ Mahatma Gandhi Park, M.G. Road.

First-of-its-kind Experience to Remember

Homage to our Father of Nation through Augmented Reality-enabled display that

will bring to life the Great Soul's

* Prayer music

* Collection of rare images * Speeches & Quotes

> * Documentaries * Movies

* Gandhi in 3D avatar

The entire experience will be available to public through '4point2 Technologies'

MarkAR App for Android devices between October 2 and October 10

an amazing experience for children to understand the Mahatma

K. Shiva Kumar Chairman, 4Point2 Technologies

S. Darshan

CEO, 4Point2 Technologies

Madhu Chander. D CTO, 4Point2 Technologies

Will interact with the media to explain the technology behind this experiential event

We request you to depute a Correspondent, a Photojournalist/ TV CREW to cover this event.

EXPERIENCING MAHATMA GANDHI'S LIFE THROUGH AUGMENTED REALITY

Unique homage by 4Point2 Tech company on Gandhi Jayanthi to educate public/children about the Mahatma.

Bengaluru: There have been several experiments in presenting Mahatma Gandhiji's ideals, principles and message to the world in the past. For the first-time ever, the public were able to experience Gandhiji's life through Augmented Reality (AR), a technology that enables an interactive representation of a real-world environment enhanced by perceptual information, leading to an experiential learning and understanding.

Bengaluru-based technology enabler, **4Point2 Technologies**, today paid homage to the Father of our Nation on the occasion of Gandhi Jayanthi in a unique manner at the Mahatma Gandhi Park on MG Road. By harnessing AR, the company provided an experiential understanding of Gandhiji, his message through music, speeches, images, documentaries, movies and a 3D projection, all enabled by a smartphone! The preview for the media was followed with the AR being opened to the general public through their smartphones.

It is for the first-time ever that Gandhiji's life was presented through AR, which bridged the gap between the past and the present. The public, especially the children, were able to understand Gandhiji's life and values through this experiential learning, which will continue to be available until October 10. All that they have to do is download the 'MarkAR' app on to their smartphones.

Speaking about this unique homage, Kumar Shiva Kumar, Founder Chairman and Managing Director, 4point2 Technologies, said, "Gandhiji is part of our collective conscience. He stood for peace, nonviolence and self-reliance, all of which are relevant even today. He believed in action as progress and that inspired us to provide this experiential learning about him using our 'MarkAR' augmented reality app. This is our homage to the greatness of a man whose philosophy guides India even today."

4point2 Technologies' initiative received appreciation from various sections of society. Sri. C.T. Ravi, Honourable Minister for Tourism, Kannada and Culture and Youth Empowerment, Government of Karnataka, said, "We are in an advanced technological era where everything is smartphone driven. 4point2 Technologies' attempt to present Gandhiji's life through AR is a positive initiative, as the public and especially children will understand the great leader in an interactive manner, which will be effective." M J Srikant, Strategist & Director, 4point2 Technologies, remarked, "Gandhiji was a great strategist; be it the Dandi March, the Champaran movement or the civil disobedience movement, he embedded humanity at the forefront of every action. He captured the imagination of the nation like no other leader through his innovative ideas in tackling the colonialists. His strategies are still relevant in the present context and are used worldwide. We couldn't think of paying homage to Gandhiji in any better way."

In a special message, 102-year-old HS Doreswamy, who was 23 when he plunged into India's freedom movement said, "Gandhiji saw technology and machines as complementary to human effort. Gandhiji's dream of an Independent India was to make all Indians contribute towards nationbuilding, keeping aside personal ambitions and greed."

Madhu Chander D, Founder, CTO, Director & VP, 4point2 Technologies, pointed out that AR opened new vistas for a wide range of applications across sectors. "In today's digital era, AR can play a vital role in not only reaching out to key audiences, but providing experiential learnings that will last long and impactful. Today's attempt was to demonstrate the capabilities of AR that spans every sector impacting our society."

How to Celebrate Gandhi Jayanti with markAR App

According to Darshan S, CEO and Director, 4point2 Technologies, anyone with an Android smart mobile phone can download the AR app MarkAR from Google Play Store. The app will bring to life Gandhiji's messages, images, speeches and movies in AR. Gandhiji's Ram Dhun 'Raghupati Raghava....' that became famous during Dandi March and the bhajan composed by Narsi Mehta 'Vaishnava Janato' are also part of the AR experience. Those with high end smartphones equipped with a gyroscope will have the advantage of seeing Gandhiji and listening to him at any location in front of them by scanning the ground surface.
